GILLET & HORSFORD,

SOUTHWICK, MASS., U. S. A.

CLARK & STORY, PRINTERS, WESTFIELD, MASS.

GREETING.

OUR patrons will be pleased to learn that EDWARD GILLETT of this place, and F. H. HORSFORD & Co. (formerly Pringle & Horsford), of Charlotte, Vermont, have united their business at SOUTHWICK, MASS., under the firm name of GILLETT & HORSFORD. Southwick is situated on the Northampton Branch of the N. Y., N. H. & H. R. R., about one hundred miles from New York. Goods by express reach New York or Boston within five hours after shipment, and the cost of carriage to all points from here is comparatively light. In thus uniting we are able to offer our customers a much larger number of choice plants than ever before, and at lower rates for most of them.

We claim to have learned the best method of packing these plants, and can send them to any point in Europe, either by mail, or packed in boxes by express, and have them reach their destination *perfectly fresh*. We do not ask you to take our word for this, but we will refer you, if desired, to customers who have dealt with us for the past ten years. We always aim to treat our customers in a manner that will secure a continuance of their patronage.

The plants of this list from the Southwest—Southern California, Arizona, Mexico, etc., are marked *S. W.* Those marked *Cal.* are from the more central portions of California. *N. W.* means Northwest—Washington, Oregon, etc. *M.* means from the middle portion of the United States—meaning the section north of Maryland; *Vt.* means from Vermont or Northern New England, and *S.* means South. All from the *M.* and *Vt.* localities are hardy so far as cold weather is concerned, and many from the *N. W.* and mountainous regions of the *S. W.* and *Cal.* will stand some freezing. In cold climates a covering of six inches to a foot of dry forest leaves will be a sufficient protection *from frost* for almost every plant in this list.

÷ ÷ ÷ TERMS. ÷ ÷ ÷

Prices are in American money. Six at dozen rates, twenty-five at 100 rates, 500 at 1000 rates. *No charge for packing.*

One dollar is equal in value to a trifle more than four English shillings, four German marks, or five francs.

All bills will be due upon receipt of goods, unless by special agreements. Unknown parties should give good references.

Remit by draft on New York, London, or by Post Office Order on Westfield, Mass.

Orders filled as soon as the plants are ripe, mostly from September until December, but orders should reach us early.

Parties desiring Tree Seeds in quantity should communicate with us.
